

DAY 7 SUBMISSION REPORT

1. Weekly Progress Review

During Week 1 of the internship, significant learning was achieved in business analytics, user behavior analysis, KPI monitoring, dashboard creation, and fashion e-commerce research.

What I Learned:

- Understanding of business analytics workflow
- Importance of KPI tracking in decision-making
- User engagement and retention concepts
- Fashion e-commerce customer behavior
- Dashboard visualization techniques

Tools Explored:

- Google Sheets
- Microsoft Excel
- Power BI
- Google Analytics
- Notion

Analytics Concepts Understood:

- User acquisition and retention
- Conversion funnels
- Bounce rate and engagement metrics
- Customer segmentation
- Traffic source analysis

Challenges Faced:

- Understanding large datasets
- Dashboard formatting and visualization
- KPI interpretation
- Identifying actionable business insights

Skills Improved:

- Data visualization
- Business reporting
- Analytical thinking
- Dashboard creation
- Presentation and research skills

2. Weekly Analytics Report

Understanding of Raritone Business Model:

Raritone operates as a fashion e-commerce platform focused on customer engagement, personalized shopping experience, and digital marketing-driven growth.

User Journey Analysis:

Homepage → Product Discovery → Product Page → Add to Cart → Checkout → Purchase

Fashion E-Commerce Insights:

- Personalized recommendations improve conversions
- Mobile optimization increases engagement
- Social media campaigns drive traffic
- Easy checkout reduces abandonment

Competitor Analysis:

- Myntra focuses on personalization and influencer campaigns
- Ajio emphasizes affordability and trendy collections
- Amazon Fashion leverages trust, delivery speed, and recommendation systems

KPI Metrics Identified:

- User Growth Rate
- Retention Rate
- Engagement Rate
- Conversion Rate
- Revenue Per User
- Bounce Rate

Social Media Engagement Observations:

- Instagram reels increase product reach
- Influencer marketing improves trust
- Limited-time campaigns increase urgency and clicks

3. KPI Dashboard Task

A KPI dashboard was created using Excel and Google Sheets.

Metrics Included:

- User Growth
- Engagement Rate
- Retention Rate
- Conversion Funnel
- Most Viewed Products
- Social Media Reach

Dashboard Features:

- Interactive charts
- Weekly trend analysis

- Product performance comparison
- Traffic source tracking
- Engagement analysis visuals

4. Competitor Insights Presentation

Competitors Researched:

- Myntra
- Ajio
- Amazon Fashion

Comparison Analysis:

User Experience:

- Myntra offers smooth UI and personalized browsing
- Ajio focuses on affordable fashion discovery
- Amazon Fashion provides convenience and trust

Recommendation Systems:

- Myntra uses AI-based personalization
- Ajio highlights trending collections
- Amazon uses advanced recommendation algorithms

Marketing Strategies:

- Myntra uses influencer marketing heavily
- Ajio focuses on seasonal discounts
- Amazon uses cross-platform advertising and Prime benefits

Engagement Features:

- Push notifications
- Wishlist options
- Personalized offers
- Loyalty rewards

5. User Behavior Analysis Task

Why Users Abandon Carts:

- High shipping charges
- Complicated checkout process
- Lack of payment options
- Unexpected costs

Why Users Engage with Fashion Apps:

- Personalized recommendations
- Fashion trends and offers
- Influencer-based content
- Easy product browsing

Features That Increase Retention:

- Loyalty programs
- Fast delivery
- Personalized notifications
- Smooth mobile experience

How AI Recommendations Improve Shopping:

- Better product discovery
- Increased personalization
- Improved customer satisfaction
- Higher conversion rates

6. Team Presentation Summary

A short presentation was prepared covering:

- Week 1 learnings and internship experience
- Key analytics insights discovered
- KPI dashboard overview
- Competitor research findings
- Suggestions for improving Raritone user engagement and retention

Key Suggestions for Raritone Improvement:

- Improve mobile app optimization
- Introduce AI-powered recommendations
- Reduce checkout friction
- Increase influencer collaborations
- Enhance loyalty and reward programs

End of Day Submission

Submitted Deliverables:

1. Weekly Analytics Report
2. KPI Dashboard Screenshots/Files
3. Presentation PPT/PDF
4. Competitor Comparison Sheet
5. Summary of Learnings

Final Conclusion

The Day 7 tasks successfully enhanced understanding of analytics reporting, business intelligence, dashboard visualization, and fashion e-commerce strategies. The internship activities improved practical analytical skills and provided insights into customer behavior, retention techniques, KPI monitoring, and competitor benchmarking.
