

SUGGESTIONS FOR RARITONE

Business Growth & User Engagement Recommendations

Submitted By:

SRIVATSAV DLSS

Internship Role:

Data Analyst Intern

INTRODUCTION

During the internship, extensive research was conducted on fashion e-commerce platforms, user engagement patterns, customer retention strategies, virtual try-on technology, AI-powered recommendations, and competitor platforms.

Based on the analysis and findings, the following recommendations are suggested to improve user engagement, customer retention, conversion rates, and overall business growth for Raritone.

1. ENHANCE AI-POWERED PRODUCT RECOMMENDATIONS

Current Opportunity

Users often spend significant time searching for products that match their preferences.

Recommendation

Implement a stronger AI recommendation engine that analyzes:

- Browsing history
- Purchase history
- Wishlist activity
- Virtual try-on interactions
- Favorite categories

Expected Benefits

- Improved user engagement
- Better product discovery
- Increased conversion rates
- Higher customer satisfaction

2. IMPROVE VIRTUAL TRY-ON EXPERIENCE

Current Opportunity

Virtual try-on is one of Raritone's strongest differentiators.

Recommendation

Introduce:

- More accurate body and face mapping
- Size prediction assistance
- Complete outfit visualization
- Accessory matching suggestions
- Virtual wardrobe creation

Expected Benefits

- Higher customer confidence
- Reduced return rates
- Increased purchase intent
- Greater feature adoption

3. INTRODUCE PERSONALIZED STYLE PROFILES

Recommendation

Allow users to create personalized fashion profiles based on:

- Preferred styles
- Favorite colors
- Body type
- Preferred brands
- Shopping budget

Expected Benefits

- Personalized shopping experience
- Better recommendations
- Increased engagement
- Higher retention rates

4. STRENGTHEN CUSTOMER RETENTION PROGRAMS

Recommendation

Develop a loyalty rewards system that offers:

- Points for purchases
- Rewards for referrals
- Special member discounts
- Exclusive early access offers
- VIP membership benefits

Expected Benefits

- Increased repeat purchases
- Improved customer loyalty
- Better retention rates

5. OPTIMIZE CHECKOUT PROCESS

Current Opportunity

Cart abandonment is a common issue in fashion e-commerce.

Recommendation

Reduce checkout friction by:

- One-click checkout
- Fewer checkout steps
- Multiple payment methods
- Transparent pricing
- Guest checkout option

Expected Benefits

- Lower cart abandonment
- Increased purchase completion
- Improved user experience

6. IMPLEMENT SMART NOTIFICATION STRATEGIES

Recommendation

Use personalized notifications instead of generic alerts.

Examples:

- Price drop alerts
- Wishlist reminders
- New arrivals alerts
- Back-in-stock notifications
- Personalized recommendations

Expected Benefits

- Increased engagement
- Higher return visits
- Improved retention

7. IMPROVE PRODUCT DISCOVERY

Recommendation

Enhance search and discovery using:

- Smart filters
- AI search suggestions
- Trend-based recommendations
- Visual search
- Similar product suggestions

Expected Benefits

- Faster discovery
- Better browsing experience
- Increased product exploration

8. DEVELOP FASHION TREND INSIGHTS SECTION

Recommendation

Create a dedicated section for:

- Trending outfits
- Seasonal collections
- Influencer styles

- Fashion guides
- Style inspiration

Expected Benefits

- Higher engagement
- Increased browsing time
- Better product visibility

9. INTRODUCE SOCIAL SHOPPING FEATURES

Recommendation

Allow users to:

- Share try-on results
- Save outfit collections
- Follow fashion creators
- Share wishlists
- Create public profiles

Expected Benefits

- Organic growth
- Higher engagement
- Community building

10. LEVERAGE PREDICTIVE ANALYTICS

Recommendation

Use predictive analytics to identify:

- High purchase intent users
- Churn-risk users
- High-value customers
- Trending products
- Future demand patterns

Expected Benefits

- Better targeting

- Increased revenue
- Improved decision-making

11. ENHANCE CUSTOMER SUPPORT EXPERIENCE

Recommendation

Introduce:

- AI chat support
- Faster resolution system
- Product recommendation assistant
- FAQ automation

Expected Benefits

- Better user satisfaction
- Faster issue resolution
- Increased trust

12. FOCUS ON GEN Z ENGAGEMENT

Recommendation

Add Gen Z-focused features:

- Fashion reels / short videos
- Influencer collaborations
- Gamified shopping
- Style challenges
- Interactive content

Expected Benefits

- Higher engagement
- Stronger brand visibility
- Increased user acquisition_

TOP 5 PRIORITY RECOMMENDATIONS

1. Improve AI Recommendations
2. Enhance Virtual Try-On

3. Introduce Loyalty Programs
4. Optimize Checkout Flow
5. Smart Notifications

CONCLUSION

Raritone has strong potential to become a leading fashion technology platform by combining AI-driven personalization, virtual try-on innovation, and customer-centric features.

Implementing these recommendations will significantly improve user engagement, customer retention, conversion rates, and overall business growth, while delivering a more personalized and interactive shopping experience.
